

# Brain Booster Flash Cards

**Rules:** Divide your class into two or more groups. Then, have students take turns being the “clue-giver.” The clue-giver will select a card at random. The student will then need to think of a specific example of the topic listed on the card. He or she will then use words (up to two) or pictures (as many as they want) to give his or her teammates clues about their specific example. Have students use the BIC® Great Erase® Dry Erase Markers to draw their word or picture clues on the classroom whiteboard for students to solve! You can also use chalk and a chalkboard if you do not have a classroom whiteboard. You may choose to give each team 30 seconds, 60 seconds, or an unlimited amount of time to play.
